

### **GDPR Data Collection and Storage – Release Form**

The undersigned, declares and warrants on behalf of the organization named below (Licensee) that it is obtaining explicit consent to collect personal data as part of a registration or enrollment process, from each participant (User) entering an Adobe Connect (Connect) meeting, classroom or webinar (Event), where one or more custom components (each a Pod) from Refined Data Solutions, Inc. (RDS) may be operational.

Users registering, enrolling or joining Events have been notified that personal information may be collected and stored as a result of their participation (including but not limited to Name, IP address, Phone Number if they use a phone for the audio components, and information about their computer environment such as Operating System, camera and microphone device names, and network connectivity, etc.).

The Licensee hereby authorizes RDS to suppress requests to individual Users to provide such consent on a user by user basis, for the Connect Account operating at the URL listed below and will hold RDS harmless against any GDPR or similar claim or action that required explicit consent to be obtained from Users prior to any collection of personal data.

I/We hereby authorize Refined Data Solutions to suppress GDPR-compliant, data collection consent from our Adobe Connect Users for the account listed below. I/We further hereby acknowledge that by signing this release that i/we undertake to obtain such user consent, as and where required, to comply with current data privacy laws and the EU GDPR provisions if and as they apply to our users.
